

Tents

For those “Swallows and Amazon” lovers, we can supply tents for your Drascombe.

These are only available in Acrylic Canvas or Weathermax

Lugger and Longboat

A full camping tent is available for the Lugger & Longboat. It encloses the whole of the cockpit & is supported on a set of bendy poles (included in the price). It has a collar that laces around the mast, sleeves for the poles & an opening back panel with Velcro closures.

On pre 1997 boats, the back end ties down to the sheethorse tube. On later boats with the mainsheet track, four deck eyes are also required behind the mainsheet track.

Camping tent for an open Drascombe

Coaster and Drifter 22

For these two cabin boats, the tent becomes an extension of the sprayhood
